

Call for Papers

The focus of MICA 2026 is on the broad areas of Advanced Communications and Machine Intelligence, with an emphasis on theory and applications. The conference aims to bring together a diverse group of participants including academicians, scientists, researchers from industry, research scholars, and students. Its multidisciplinary nature creates opportunities for national and international collaboration and networking among universities and institutions from India and abroad. The ultimate goal is to promote research and development activities by translating basic research into applied investigation and converting applied analysis into practice. MICA 2026 also aims to raise awareness about the importance of basic scientific research in different fields that match current trends. The conference includes keynote lectures by distinguished speakers from various areas and panel discussions by industry experts. The scope of the conference covers all aspects of Advanced Communications and Machine Intelligence.
